INFORMATION BULLETIN # 11

Pathways and Bikeways Plan

January 5, 2005

It has come to our attention that our members are having difficulties negotiating with various City departments as to where regional pathways should be located at the outline and tentative plan stage.

UDI – Calgary has reviewed this issue and recommends that the appropriate CPAG representatives be advised that the Community Plan provides direction to the City administration regarding the number and location of regional pathways. An ad hoc change to the regional path plan within a community negates the Community Plan process and is contrary to the approved plan that has been approved by City Council.
