

URBAN DEVELOPMENT INSTITUTE - CALGARY

TECHNICAL BULLETIN #26

XYZ Coordinates for Water Service Valves

November 18, 2003

The Urban Development Institute - Calgary would like to inform its members that the City of Calgary has requested that XYZ coordinates be provided on 'Services Installed by Contractor Cards' (City Form No. E553 [R90-04]) for locations of service boxes. This is for the purpose of record information and is required prior to the issuance of the Sewer and Water Connections Final Acceptance Certification (F.A.C.). It has been agreed that a list by lot of design coordinates (XYZ) for development phase is acceptable and can be submitted with the 'Service Cards' for the City of Calgary.

For your convenience all UDI - Calgary technical and information bulletins are posted on our website at www.udicalgary.com.

The mission of the Urban Development Institute - Calgary is "to represent the development industry in sustainable growth through partnerships and relationships with all stakeholders"
